About Student Government Association

Acting as the voice of all students enrolled at Georgia College & State University, the Student Government Association will actively work to improve the quality of life for the student body, along with the university community as a whole. Believing in the right of self-governance, all students enrolled at Georgia College & State University shall be members of the Student Government Association and be entitled to the rights, privileges, and protections thereof.

History of Student Government Association

The SGA first emerged in 1936 on Georgia College's Milledgeville campus. The organization was founded to serve as a vehicle through which students can have their concerns addressed by elected student representatives. Since its inception, the SGA has had an industrious and successful tenure. The organization has offered a legitimate voice to the University administration, championing students' interests, and partially funding various speaking events, campus structures, student organizations, and students attending academic conferences.
